FOREIGNERS FACING DANGER IN MEXICO; VILLA MAY RETIRE

Condition So Serious in Capital American Consul May Act.

GALVESTON, Tex., July 2.—There will be no peace negotiations between Villa and Obregon, according to a Carranza official at Vera Cruz. Obregon is Carranza's leading General. This message also declared Gen. Gonzalez yesterday defeated Zapata's east of Mexico City.

WASHINGTON, July 2.—Unless food reaches Mexico City at once foreigners will be in great danger, the British Minister has notified the State Department. His warning was in President Wilson's hands today.

It is expected the President will authorize Consul Sullivan to make urgent representations to Gen. Carranza for the purpose of forwarding supplies from Vera Cruz. At latest accounts Gen. Zapata's forces were maintaining their advantage in the capital against Gonzalez. Decision on the question of extraditing Gen. Victoriano Huerta on various criminal charges rested today with the State Department. Formal request for his extradition was submitted by Gov. Ferguson of Texas, at the request of the Villa Governor of Chihuahua State. Huerta is charged by the Villa and Carranza factions with implication in

the murder of President Madero and Vice-President Suarez following the overthrow of the Madero administration and Huerta's assumption of power.

Secretary Wilson of the Department of Labor has under consideration a plan for deporting Huerta to Spain under the immigration laws covering the return of undesirable aliens.

Breaking the silence he has maintained since he crossed the Mexican border on a special mission for Gen. Villa, Gen. Felipe Angeles, sometimes called the strategic brains of the Villa army, gave out an interview here today.

"The revolution," said Gen. Angeles, "was fought for the restoration of the constitutional order and the new government should be set up by means provided by law, so as to give it legal sanction. Therefore, I would favor the recognition of that member of the cabinet of the late President Madero entitled to the office under the law of Presidential succession, provided, of course, he stands for real democratic government."

"Whom do you blame for the delay of peace?"

"The sole responsibility rests with Carranza," since Gen. Villa has invited him to discuss terms of compromise. And responsibility for what may hereafter happen rests with Carranza—all due to his personal ambition and thirst for power."

His answer to a query concerning Villa's personal ambition was emphatic. "Gen. Villa certainly does not wish to become President. He would accept it under no circumstances. No one actually supporting the cause which Gen. Villa represents wants the office. We only want the men entitled to it by law to have it, even though it be for the mere purpose of turning it over to some one else better capable of harmonizing the situation."

Congress General Shanklin and C. J. O'Connor, representing the Red Cross, are said to have reached Mexico City safely Wednesday night. They had with them a large quantity of hospital supplies and were given safe transportation through the lines of both factions, says the report.

A special train of twelve car loads of corn, which left Vera Cruz yesterday for Pachuca, destined to Mexico City, was accompanied by armed guards furnished by Gen. Carranza.

ENDS HIS LIFE TO JOIN WOMAN HUSBAND SLEW

She Was Killed Because She Loved Him and He Commits Suicide.

(Special to The Evening World.)
CAMDEN, N. J., July 2.—A tragedy of the "eternal triangle" was completed here today by the suicide of James Pollock, forty years old, who shot himself on the doorstep of a farm house at Blackwood, Camden County, where Frank Duncan shot and killed his wife and then killed himself on March 2.

Pollock was employed by Duncan and fell in love with Duncan's comely thirty-five-year-old wife. Duncan found some letters his wife had written to Pollock and killed her and himself, leaving two little children. Pollock remained in the neighborhood. In his pocket was found a note in which he stated that he had adopted the only way in which he could join his "own true love."

HESSIAN FLY KILLING WHEAT

Loss Over Wide Area Will Amount to Millions of Bushels.

WASHINGTON, July 2.—The Hessian fly is inflicting immense damage to the wheat crop throughout an area extending from Northeastern Oklahoma and Northern Arkansas northward through Kansas, Missouri, Nebraska and Southern Iowa, and eastward, including principally Illinois, Indiana, Ohio and Pennsylvania. In a circular issued today by the Department of Agriculture the prediction is made that the fly will cause a loss of millions of bushels. Officials charge the fly with responsibility for decreased condition reports from those States.

The department states in the circular that nothing can be done now to lessen the damage to the present crop, but warns farmers to sow next year's crop in August in order to save it from being attacked.

DENOUNCES JURORS IN OPEN COURT FOR REFUSING VERDICT

Juryman Declares They Tied Up Jury Because They Are Property Owners.

Supreme Court Justice Cohalan today struck the names of three men from the roll of jurors after declaring that their conduct in holding their own financial interests above that of justice had resulted in one of the grossest miscarriages of justice ever brought to his attention.

The three men who can never serve again are Eli Baft, a buyer of No. 114 West One Hundred and Thirtieth Street, a nephew of Bernard Baft, the murdered poultry man; Benedict Theise, an agent of No. 240 East Eighty-fifth Street, and Peter Karsten, retired, of No. 60 East One Hundred and Twenty-eighth Street.

From 1:30 yesterday afternoon until past midnight last night these three

men held up a jury which for three days had been trying a suit brought by the Tenement House Commission against Leon Sobel, to collect a \$1,000 fine from him for alleged violation of the tenement house law in the premises Nos. 200-202 Manhattan Avenue. Justice Cohalan did not learn of the matter until this morning when Matthew Larkin, who was Juror No. 1, arose in the jury box and declared that the three jurors' minds had been warped by the fact that they were interested themselves in tenement property. These, according to Larkin's statement, openly boasted in the jury room that he had hung three other jurors in similar cases by holding out in favor of the landlord. Another one of the three discharged jurors, Larkin further told the court, had stated to his fellow jurors that on the first day of the trial he had his mind fully made up not to give judgment in favor of the city.

"Immediately after we reached the jury room," said Larkin, "we were told by these three men that a verdict in favor of the city would injure the property interests of hundreds of furnished flat owners. It came to my attention that one of the jurors is interested in a firm representing the owners of 172 apartments in this city."

"This," said the court, addressing Assistant Corporation Counsel John P. O'Brien, "is one of the grossest miscarriages of justice ever brought to my attention. So that these men will hang up no more juries, I now order their names stricken from the rolls."

Upon motion of Mr. O'Brien the court took under advisement a request to take the matter from the jury and order a verdict.

BOY MURDERER DIES; OSBORNE FAILS TO SAVE

Dunn Was Arrested Because He Overturned Telephone When He Slew Agent.

AUBURN, N. Y., July 2.—David Dunn, the twenty-year-old Corning murderer, died in the electric chair early today for killing Wells Fargo Agent Harry T. Edwards in Corning in February, 1914. An eleventh hour effort of Warden Thomas Mort Osborne of Sing Sing to obtain a respite because of belief in Dunn's insanity failed.

Dunn was fully reconciled and bade farewell to his mother and brother late last night, going to bed soon afterward. He spent his final hours in prayer, and as he took his seat paused a moment to say good-bye to Father Crowley, the attending priest.

Dunn gained access to the express office, and after shooting Edwards in an effort to get money he knocked down the telephone receiver. The telephone girl, in her effort to learn why the receiver was down, made a prompt discovery of the murder and Dunn was apprehended in bed in his home not far from the scene.
